01

Holistic Leadership Development

Wholistic Ministry

The goal of a Holistic Leadership Development program is to train leaders Spiritually, Socially, Physically and Mentally to become salt and light in word and deed to make a positive impact in their communities.

02

Community Health and Development

Training Community Health Volunteers(CHV) Our main strategy is to train as Community Health Workers, people who are already involved in some way in their communities.HIMserve Offers a 10 Session (40 Days Total, over 10 months) for CHV candidates.We aim to enable as many people as possible to become good agents of change within their communities.

03

Holistic Child Development

Child to Child (CTC)

Lasting change in a community will only take place when the younger generation is involved in the changes, it is said that the youth is the pillar of nation and we believe before every youth he is a child first. HIMserve believes in educating the children and train them to become a good pillar of nation . The concept of "Child to Child" emphasizes the idea of children being messengers of change to the other children in their families and communities. Children are always interested in new knowledge and skills. They can help to keep the environment clean and promote good sanitation.
